

The Easiest Way to Run Your Payroll!

Save Money with our Complete Payroll Software

CheckMark Payroll is a stand-alone payroll software that integrates with many accounting systems, and handles unlimited employees and unlimited companies for one low price. CheckMark Payroll is much less expensive than a payroll service and just as easy.

CheckMark Payroll does the following without extra fees:

- Allows user to define incomes and deductions for nearly every need.
- Handles tax sheltered deductions like 401(k).
- Comes loaded with federal and state withholding tables.
- Integrates data with MultiLedger, QuickBooks, Peachtree, Connected, MYOB and many other accounting programs.
- Imports hours from a spreadsheet or time clock.
- Allow entry of employee hours in spreadsheet-style window.
- Accrues sick and vacation time.
- Prints checks with paystubs.
- Ability to print checks with MICR encoding on blank check paper.
- Quick access to payrolls from previous years (up to 4).
- Prints completed Forms 941, 940, 944, W-2 and W-3 forms on blank paper.
- Files W-2s electronically to SSA and most states.
- Calculates employer payments and prints the checks.
- Includes Direct Deposit and ACH-formatted files.
- Able to email secure, signed PDF pay stubs for paperless paychecks. Signed emails require a certificate.
- Allows user to distribute employee hours or wages by department or MultiLedger job.
- Prints a completed California DE-6 form and generates an electronic DE-6 file.
- And more.

Accountants and payroll services love CheckMark Payroll.

- Run unlimited employees and unlimited companies for no additional cost.
- Install on multiple computers at one location.
- Print MICR encoded checks on blank check paper.
- Run after-the-fact payrolls or single checks.
- Save most reports as tab-delimited text files.

Q: If I buy CheckMark Payroll, what tax tables do I get?

A: When you buy CheckMark Payroll, you will also get the most up-to-date federal and state tax tables.

Q: How much are annual updates to CheckMark Payroll?

A: The Payroll Update download is currently only \$125 and includes the latest software, revised tax tables and revised tax forms. The Payroll Update is optional.

Q: Do I have to start using CheckMark Payroll at the beginning of the year?

A: No, you can start using CheckMark Payroll at any time of the year. Most new users can enter year-to-date totals for the employees as of the last completed quarter, and then enter after-the-fact checks for the current quarter.

Q: I currently use QuickBooks accounting software. Can I import Payroll data into QuickBooks?

A: Yes, you can save a posting file, which will easily import and post to your QuickBooks company. CheckMark Payroll also integrates with MultiLedger, Quicken, Peachtree, MYOB, ASI, Connected and many others.
